

Instructions

This report has been structured to give us the information we need to monitor the success of the project grant program. We do not expect long and involved answers; please try to keep responses brief (bullet points or a few sentences) and **directed at a general audience**. If we require more detail on an answer we will contact you to follow up. If you are unclear about what information you should include, please contact us to clarify.

Please type your report using this electronic form template using 11 point arial. You are welcome to add or delete rows from tables as required.

This progress report template is to be used for 2 year projects and is due within 3 months of the end of the first year of funding.

5. Other research outcomes (if relevant)

If you think there have been any other important research outcomes to date not covered by the previous points, please give details here. This could include other knowledge outputs (e.g. research databases, non-traditional outputs) or ways the work from this project grant will help to improve your future research, e.g. has it helped you to refine your research question or establish proof of concept?

6. Community engagement & dissemination

6.1 Consumer / community participation in the research project.

Please give brief details of any ways you involved consumers / community members in your research project and the outcomes of the involvement. This includes any involvement during the project as well as dissemination activities at the end of the project. Note: consumer / community involvement does not include people who were the subjects of your research (e.g. patients involved in trialing a new treatment).

6.2 Industry / government partnerships (if relevant)

Please give brief details of any partnerships or other significant involvement you had with industry and / or government as part of the project and the outcomes of the involvement. This includes any involvement during the project as well as dissemination activities at the end of the project. For example, partnering with an industry body to disseminate new good practice guidelines resulting from the research, involving policy makers on your research steering group etc

6.3 Presentations to non-academic audiences

Please list any presentations given to non-academic audiences e.g. practitioners, policy makers, local community group. Only include ones **directly related** to the funded research.
