

# OCCUPATIONAL CANCER RESOURCES.

**Raise awareness about potential cancer hazards in Australian workplaces**

Get free resources on common cancer-causing agents at **[cancer.org.au/go/workcancer](https://cancer.org.au/go/workcancer)**.

Cancer Council has designed resources for both employers and employees explaining common workplace carcinogens, how they can cause cancer, workplace legal obligations and how to reduce the risk of exposure.

## **What cancer-causing agents are included?**

You can find information on diesel engine exhaust, silica dust, welding fume, asbestos, solar UV radiation, environmental tobacco smoke and more.

### **Resources include:**

- toolbox videos
- toolbox guides
- fact sheets
- pocket guides
- posters
- e-modules
- workplace cancer compensation guide

New topics and resources are continually being added to the website. Email **[workplacecancer@cancer.org.au](mailto:workplacecancer@cancer.org.au)** to be notified when new resources are released.
