

Provide information and **support** around cancer.

A nationally accredited cancer education program for Aboriginal health professionals.

The five day Cancer Education Course aims to:

- Increase participant knowledge about cancer, prevention, early detection, treatment and the impact of disease to improve the care of people with cancer
- Improve participant skills to provide support to clients with cancer and promote prevention and early detection messages in the community
- Facilitate networks between Aboriginal health professionals and cancer support staff based in the local and surrounding areas.

You will receive:

- Nationally accredited certification - HLTAHW035 Provide information and support around cancer.
- Course registration.
- A participant booklet and study notes.

"The tour of the Cancer Centre at Sir Charles Gairdner hospital was a highlight... I now know the journey patients take when coming down for treatment. During the tour we got to see the radiation and chemo set up which gave me a sense of what my clients have to go through every 2 - 3 weeks." Past course participant.

Places are limited. To register download and complete the application form [here](#) or contact Michelle de La Haye on 08 9227 1631 or via email michelle.delahaye@ahcwa.org
